

**MARYLAND DISABLED AMERICAN
VETERANS TAGS
or DAV TAGS
AND
IDENT-O-TAGS, B. F. GOODRICH TAGS
AND OTHER MARYLAND TAGS
BY
JOE BURFORD
AND
JON OLIVARRI**

MARYLAND TAGS

DAV tags were made from 1941 to 1976. They came in steel, aluminum and plastic. Steel and aluminum had celluloid windows with cardboard slugs or plastic slugs. Plastic had cardboard slugs, they had metal clips on the end of the plastic where the key ring went through the hole. They made solid plastic tags also.

IDENT-O-TAGS were made in 1942, They were before the DAV tags. B. F. GOODRICH made metal tags in 1939 to 1942. Also in this book you will find other Maryland tags.

In this book you will find a place to mark your tags **TYPE- 1** ☐ put a x in the box. On some of the DAV tags you will find three strips **||** on the left the strips are RED, WHITE and BLUE on the right they are BLUE, WHITE and RED.

One of the most asked question is why they stopped sending them out. The reason is, in 1975 the Federal Government passed the right to privacy law. This law restricted the access to the Department of Motor Vehicles records, that the Disabled American Veterans were using to send out the tags. Maryland was one of only four states that had 1976 Disabled American Veterans tags sent to them.

If you would like to know more about Maryland and all the other states that the DAV send tags to. There is a book on them. The name of the book is Peterson's Guide To Keychain License Plates by Gordon Peterson. This book is out of print. He has this book on disk. His address is Gordon Peterson P. O. Box 309 Rutland, Ma. 01543.

Jon Olivarri gave me the information to put this book together. He gave me the picture from his collection and proof read this book. So his help and being co-author of this book is appreciated.

Believe this tag is a special request possibly made especially for D.A.V. executives that worked in D.C. only four known.

MARYLAND DAV TAGS

The nexy few pages are some of the difference cards with the D.A.V. tags on them. They used Jimmy Stewart to help raise money. Also you you can see in the early years they sent you cards to put your change in.

JIMMY STEWART SAYS:

"Take a good look at this tag"

"...the next time the postman delivers your tag, remember who made it...remember who sent it to you and remember, the small sum you give for your license tag...well, such contributions keep the DAV factory running...these disabled veterans working and directly support the entire cause of the Disabled American Veterans."

Here is a scene from the movie, "How Much Do You Owe?" showing General Jonathan M. Wainwright and James Stewart... watch for its appearance at your local theatre.

This film is being distributed through the courtesy of the National Screen Service Corporation.

The next few pages are different identification tags. Maryland Ident-o-tags started about 1939. Then came Disabled American Veterans tags. Also B. F. Goodrich came out with tags for cars and trucks 1939 to 1942. Jon made two tags to see what they would look like today if they were still being made. Someone made a disconnecting key chain with a Maryland tag in it. Micro Machines made a set of tags one for each state and Washington D. C. On one of these pages the tags are believed to have came out of a bubble gum machine. Also the Disabled American Veterans made personnel dog tags.
